SUMMARY

Computer Science undergraduate with strong problem-solving skills and hands-on experience in full-stack web development. Built and deployed scalable web applications using React.js, Node.js, Express.js, and TiDB Cloud. Passionate about developing real-world software solutions, writing clean code, and continuously learning modern technologies. Seeking Software Development Engineer (SDE) opportunities to contribute and grow in a collaborative environment.

PROFESSIONAL EXPERIENCE

ClusterCode Technology Sdn., Software Development Intern04/2026 – 06/2026 | Remote,Lucknow

- Assisted in the development of an AI-powered platform for generating UI automation test scripts by analyzing web applications.
- Gained hands-on exposure to AI-assisted software testing, automation workflows, and web application analysis.
- Collaborated with the development team to understand application architecture, testing strategies, and automation pipelines.
- Strengthened problem-solving, software engineering, and teamwork skills while working in an agile development environment.

EDUCATION

BTECH - CSE, KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY2023 – 2027

CGPA: 7.7

CLASS - XII, LUCKNOW PUBLIC SCHOOL2022 – 2023

82%

CLASS - X, LUCKNOW PUBLIC SCHOOL2020 – 2021

90%

SKILLS

1) Front End Developer	2) React	3) MySQL	4) UI Test Automation
5) Machine Learning	6) Python	7) Database Management	8) API's
9) OOPS	10) Git & GitHub		

CERTIFICATES

SAP Certified Associate – Backend Developer	Coursera – Ethical Decision Making	Coursera – Business for Good	Coursera – Corporate Governance
---	------------------------------------	------------------------------	---------------------------------

PROJECTS

Full Stack Job Portal, React.js | Node.js | Express.js | TiDB Cloud | JWT | Tailwind CSS

- Developed a full-stack Job Portal with secure JWT-based authentication, enabling user registration, login, recruiter and candidate workflows.
- Built RESTful APIs using Node.js and Express.js for job posting, job applications, profile management, and resume upload functionality.
- Integrated TiDB Cloud (MySQL-compatible database) with secure password hashing using bcrypt for reliable cloud-based data storage.
- Deployed the frontend on Vercel and backend on Render with environment-based configuration and GitHub-powered automatic deployments.
- Live Demo: <https://job-portal-drab-xi.vercel.app>

AI Resume Analyzer, Python, Streamlit, NLP, Scikit-learn, Matplotlib

- Developed an AI-powered Resume Analyzer using Python, Streamlit, and NLP techniques.
- Implemented ATS score prediction, job-description matching, and missing skill detection using TF-IDF and cosine similarity.
- Designed and deployed an interactive resume evaluation dashboard with skill analysis visualization.
- Live Demo: <https://resumeanalyzer-snmgwevjwbjtl4nk36379p.streamlit.app>

SPAM EMAIL DETECTION Checker, Research Project | Python, NLP

- Designed and implemented a machine learning-based spam email detection system using Natural Language Processing (NLP) techniques.
- Applied text preprocessing methods including tokenization, stop-word removal, stemming, and TF-IDF vectorization.
- Trained and evaluated multiple classifiers such as Naive Bayes, Logistic Regression, and Support Vector Machine (SVM).
